

Tii 65-10

10 Pair IDC Connector Block

Compact Craft Friendly Design
Utilizes Tii's Gel-Sealed IDC Rocker Design

Tool-Less Terminations

Mounts Easily to a Krone Type
Back Mount 2/10 Frames

Replaces Krone LSA Series
Terminal Blocks

Tii 65-10

Based on the gel and IDC technologies that have made Tii sealed connections the industry standard in Network interface products, with over 400 Million rockers in service around the world, the 10 PAIR IDC block adds a new level of simplicity and efficiency to cross-connect functions. Tool less Gel sealed IDC's terminate and lock 22-26 AWG conductors and seals the connection against corrosion. The Tii block uses existing Krone type test tools thereby eliminating the need to re-equip the workforce.

KEY PRODUCT BENEFITS

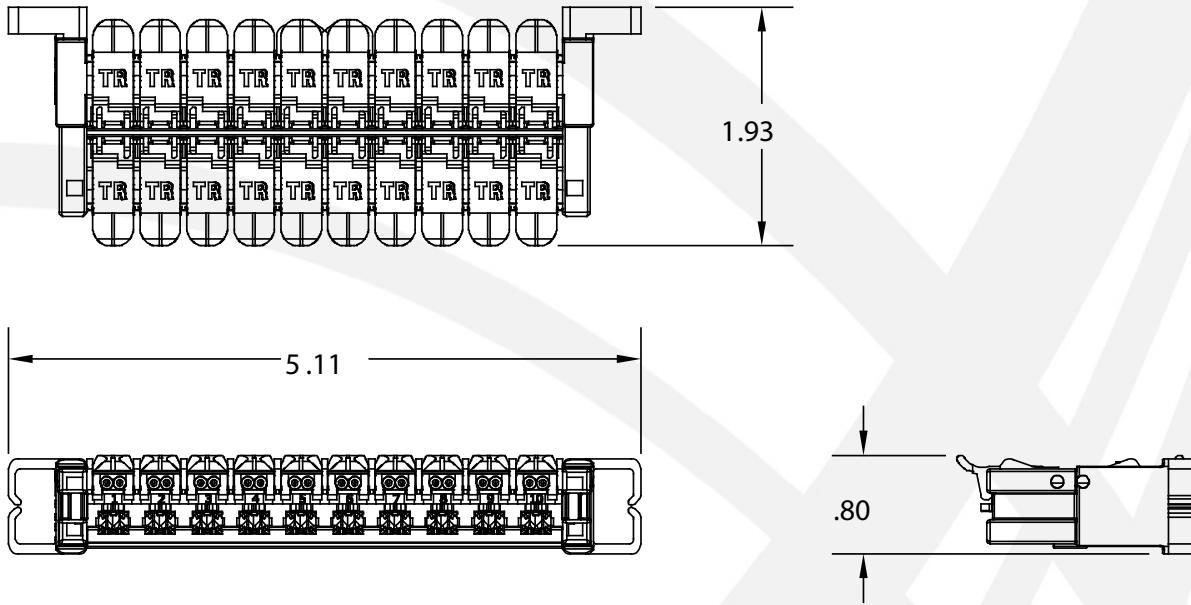

- ▶ Terminations are made to gel-sealed insulation displacement contacts (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.
- ▶ Compact, low profile design fits into applications where space is limited.
- ▶ Designed for High Speed Networks including VDSL2.
- ▶ The Tii 65-10 may be mounted to a Krone type 2/10 frame.
- ▶ Gel-sealed terminations make the Tii 65-10 ideal for harsh environments.
- ▶ Accepts 26 through 22 gauge solid conductor wire sizes.
- ▶ Standard Krone LSA-plus test plugs can be used for line testing.
- ▶ Pair marking is accomplished with the standard 2/10 hinged label holder.
- ▶ No new tools required, designed to use standard Krone test clips and connectors to minimize conversion and maintenance.

Tii 65-10

Dimensions in inches

SPECIFICATIONS

Insulation Resistance	> 100 MOhms
Connection Resistance	< 25 MOhms
Conductor Sizes	22-26 AWG (0.4 - 0.6 mm)

ORDERING INFORMATION

Model No.	Description
Tii 65-10	10 Pair Cross Connect Block
Standard Package:	20 pieces
Weight:	0.14 lbs. each
